

# Unlock Agility & Innovation with Royal Cyber's Salesforce Composable Commerce Solutions

## Salesforce B2C Composable Commerce Hybrid Storefront Model

- ✓ Launch your eCommerce Storefront in 10-12 weeks using Salesforce provided Hybrid Storefront Model.

### PATH 1 - Hybrid Storefront Model

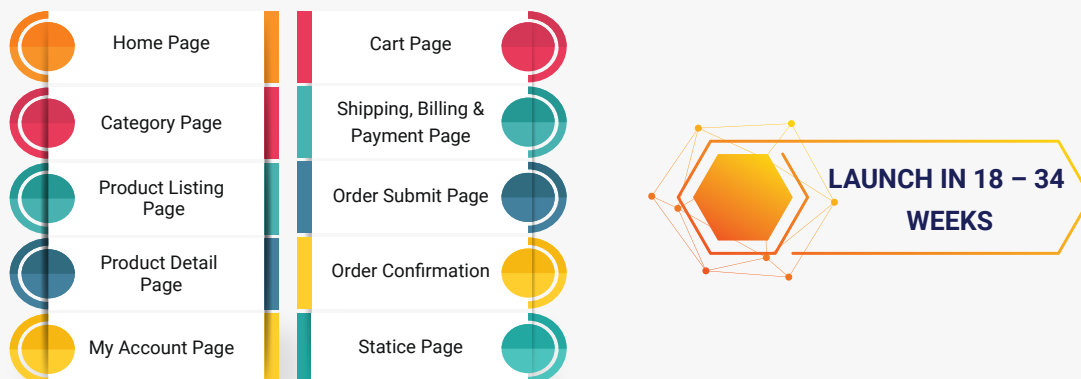

This model allows customers to keep their cart check-out pages intact on SiteGenesis or SFRA while migrating the rest of the storefront pages, including Homepage, PDP, PLP, CLP, My Account, and all the static pages on the PWA React-based Storefront.

## Salesforce B2C Commerce Implementation/Migration with Complete Composable Storefront from Login to Checkout

### PATH 2 - Implement/Migrate Complete Composable & Headless Storefront

This implementation/migration model allows customers to go all Composable with respect to all the storefront pages from Login to Checkout. This model is applicable to all customers who are migrating from their existing eCommerce platforms to Salesforce Composable Commerce and also to those who want to migrate from SiteGenesis or SFRA to a fully Composable Commerce Storefront.
