

Revolutionize Your ServiceNow Testing with GoTestPro

Enterprise-grade Automation. Zero Script Maintenance. Lightning Speed.

Why GoTestPro for ServiceNow

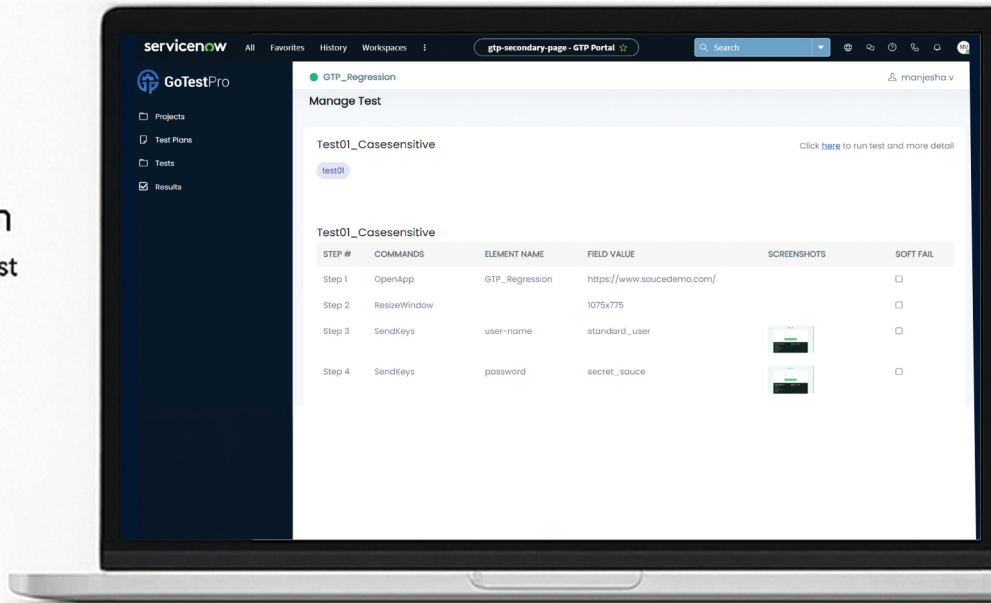

No-Code Test Creation
Empower your team to build robust tests – no coding required.

CI/CD Ready
Automatically scale tests to platform upgrades.

Real-time Dashboards & Reporting

See the Difference

	GoTestPro	ATF (ServiceNow)
Ease of Use	No-code/low-code interface for business users	Requires technical knowledge; scripting-based
Test Coverage	End-to-end testing across ServiceNow and other platforms	Primarily focused on ServiceNow platform only
Speed to Deploy Tests	Rapid test creation using accelerators & templates	Time-consuming to build complex test scenarios
Cross-Browser Testing	Supports multiple browsers with test reuse	Limited or manual configuration required
AI/ML Capabilities	Offers intelligent automation features (AI-assisted testing)	No built-in AI/ML features

What Customers Are Saying

“We cut our regression testing time by 80% after switching from ATF.”

– Director of QA, Fortune 500 Financial Services Firm
